I specialize in graphic design, photo editing, and frontend development using HTML, CSS, JavaScript, and React. With a deep passion for graphic design, I've had the opportunity to work on a wide range of projects, both within my university's organizations and for external clients. Over the past two years, I've dedicated myself to honing my skills in this field.

As an active member of the Google Development Student Clubs in Abbottabad, I've had the chance to collaborate and learn from fellow developers and designers. I take pride in my strong work ethic, honesty, and a good sense of humor. I'm always eager to learn new skills and enjoy helping others. I thrive both as an independent worker in fast-paced environments and as part of a team. With a friendly and outgoing personality, I'm also a great listener when it comes to problem-solving.
